

Testimony of

Frances Bellina

Retired Educator

Before the

Appropriations Committee

Re:

**SB 107: AN ACT CONCERNING THE TEACHERS' RETIREMENT SYSTEM HEALTH INSURANCE
SUBSIDY.**

March 18, 2022

Good morning, Senator Osten, Representative Walker, Senator Miner, Representative France, and members of the Appropriations Committee.

I testify today in support of SB 107 and the increase in the health insurance subsidy for retired teachers; however, I urge you to amend the proposal to increase the subsidy amount for all retired educators.

The retired teachers' health insurance subsidy has not seen an increase since its 1996 even though insurance prices have continued to go up exponentially. As such, I encourage you to amend this proposal to double the current subsidy from \$110 to \$220 per person month for retired teachers and their spouses under age 65 to purchase insurance coverage from their former school districts and to \$440 per month for retired teachers age 65 and over who do not qualify for Medicare.

Living on a fixed income is difficult with rising prices on food, medicine, rent, heating, taxes and transportation. I worked in industry for 20 years before becoming a teacher so my Social Security is reduced because of WEP/GPO. I live in CT so my state deduction for real estate taxes is limited for my Federal taxes. So any help you can give retirees would be greatly appreciated. Thank you for your consideration.

Thank you for addressing this critical issue impacting our retired educators.
